

Show your support for early childhood educators

The Association of Early Childhood Educators of Alberta is introducing a **supporting membership** option!

Designed for those outside the profession, this membership offers a way to support and uplift early childhood educators. Members receive AECEA's monthly newsletter, keeping you informed about key developments in the sector.

Who is AECEA?

AECEA is the professional association for early childhood educators in Alberta. Together, we build community, amplify educator voices, and advocate for a stronger profession.

Who is supporting membership for?

Supporting membership is for community partners, researchers, board members, and advocates, as well as parents, families, and retired or former educators—anyone who believes in a well-supported early learning and child care sector.

What does supporting membership do?

Supporting membership helps strengthen the early childhood profession. Your contribution supports advocacy efforts, educator resources, and opportunities that elevate the voices and well-being of educators across Alberta.
